PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science & Engineering (AI & ML) student with hands-on experience in C,C++,Java,C#,Python, HTML, CSS,PHP, JavaScript, Machine Learning, Data Analytics, and Generative AI. Experienced in developing AI-powered and web applications through academic projects and internships. Seeking a Software Engineering, AI/ML, or Data Analytics internship.

EDUCATION

B.Tech(CSE – AI & ML)

JNTUH University College of Engineering, Manthani

2024–2027 | 7.87

Diploma(Computer Science Engineering)

Dr BR Amedkar Govt Model Residential polytechnic college

2024 | 91%

SSC

Telangana Minority Residential Educational Instructional society

2021 | 95%

TECHNICAL SKILLS

Languages:C,C++,java,C#, Python,JavaScript

Web: HTML, CSS, JavaScript,Data Structures,Database Management System,

Internet of Things,node.js,React.js,Cryptography

AI & Data: Machine Learning, Data Analytics, Generative AI

Tools: Git, GitHub, VS Code, Jupyter Notebook,Visual studio,NetBeans,pycharm

INTERNSHIPS

CodeAlpha Data Science Internship

- Developed machine learning and data analytics projects using Python.
- Created predictive models and visualized datasets.
- Improved data preprocessing and model evaluation skills.

Synent Technology Internship

- Developed responsive web applications using HTML, CSS, and JavaScript.
- Created user-friendly web pages following responsive design principles.

Deloitte Data Analytics

- Completed practical business data analysis and visualizations
- Applied analytical techniques to solve business case studies.

Deloitte Cyber Security

- Completed cybersecurity simulation tasks.
- Learned risk assessment and security best practices.

PROJECTS

Learning Path Generator

- Built an AI-powered learning platform using Python, Streamlit, Gemini AI, and MCP.
- Generated personalized learning roadmaps based on user goals.
- Improved user experience with an interactive interface.

Online Food Ordering Application

- Developed a responsive food ordering website with 10+ webpages.

- Implemented menu browsing, shopping cart, and order placement.
- Improved responsive design for desktop and mobile users.

Personal Portfolio Website

- Designed a responsive portfolio website showcasing projects, certifications, and skills.
- Integrated GitHub and LinkedIn profile links.
- Optimized the website for mobile and desktop devices.

Car Price Prediction

- Developed a machine learning model using Python.
 - Performed data preprocessing and feature engineering.
 - Predicted vehicle prices using historical datasets.
-

CERTIFICATIONS

- Microsoft Career Essentials Essentials in Generative AI
 - TCS iON Career Edge – Generative AI Essentials
 - UiPath – Introduction to Automation
 - Deloitte Data Analytics Virtual Job Simulation
 - Deloitte Cyber Security Virtual Job Simulation
 - NextWave CCBP 4.0 Workshops
 - IBM prompt Engineering
 - TCS iON Career Edge-Young Professional
-

ACHIEVEMENTS

- 3rd Prize-Telangana Green Crops Hackathon
-

WORKSHOPS

- National Level Workshop on Generative AI&DataScience
- NextWave CCBP 4.0 Workshops
